Business Model

Modular Business Automation SaaS Platform

2026

Business Concept

A cloud-based, self-service business automation platform that allows organizations to:

- Select individual modules to solve immediate problems
- Combine multiple modules into custom workflows
- Or subscribe to a fully integrated enterprise suite

"Build-your-own ERP ecosystem"

Value Proposition

Core Differentiators

- **Modular Freedom** – Clients only pay for what they need
- **Plug-and-Play** – Easy onboarding, minimal IT dependency
- **Local Context** – Built for Zambian/African compliance (ZRA, NAPSA, NHIMA, labour laws)
- **Scalable** – From SMEs to large enterprises
- **Self-Service First** – Clients configure, customize, and scale independently

"First of its kind – We are changing the game"

Target Market Segments

1. **SMEs (Primary Target)**
   - Need affordable, simple systems to automate manual processes & resolve Excel overload
2. **Growing Mid-Sized Firms**
   - Need integration across departments
3. **NGOs & Donor-Funded Projects**
   - Need compliance, reporting, audit trails
4. **Corporate Enterprises**
   - Need customizable enterprise-level solutions

"Not all heroes wear caps, others code.."

Product Modules

A. Core Business Modules (Core + Extended)

1. **Finance & Accounting (ERP Core)**
   - General ledger, budgeting, financial reporting
   - ZRA tax compliance
2. **Payroll Management**
   - PAYE, NAPSA, NHIMA integration
   - Payslip automation
3. **Leave Management**
   - Leave tracking, approvals, balances
4. **Performance Management**
   - KPI tracking, appraisals, 360 feedback
5. **Procurement Management**
   - Requisitions, approvals, supplier tracking
6. **Inventory Management**
   - Stock tracking, alerts, warehouse management
7. **Fleet Management**
   - Fuel tracking, maintenance, vehicle usage

"First things first, a strong foundation"

Product Modules

B. High-Value Add-On Modules (Revenue Drivers)

8. **HR Information System (HRIS Full Suite)**
   - Employee records, onboarding, contracts
9. **Project Management**
   - Task tracking, timelines, donor reporting (important for NGOs)
10. **Customer Relationship Management (CRM)**
   - Sales pipeline, customer tracking
11. **Asset Management**
   - Fixed asset tracking, depreciation
12. **Document Management System (DMS)**
   - Secure storage, version control
13. **Compliance & Audit Module**
   - Internal audits, compliance checklists
14. **E-learning & Training Module**
   - Staff training, onboarding programs
15. **Time & Attendance (Biometric/Remote Integration)**
   - Clock-in/out, shift management
16. **Expense Management**
   - Claims, approvals, reimbursements
17. **Business Intelligence & Analytics Dashboard**
   - Real-time insights, KPI dashboards

"First things first, a strong foundation"

Product Modules

C. Premium/Advanced Modules

18. **AI-Powered Insights**
    - Predictive analytics (cash flow, employee performance)
19. **API Integration Hub**
    - Connect with banks, mobile money, external systems
20. **Multi-Entity / Multi-Branch Management**
    - For corporates with multiple locations

"First things first, a strong foundation"

Platform Features

- Self-service onboarding portal
- Drag-and-drop module activation
- Role-based access control
- Mobile-friendly interface
- Offline-lite capabilities
- Integration with:
    - Mobile money (MTN, Airtel & ZAMTEL)
    - Banking APIs
    - Government systems (where possible)

"First things first, a strong foundation"

Revenue Model (SaaS Licensing)

Pricing Philosophy

- Tiered by:
  - Number of users
  - Feature complexity
- Discounts for:
  - Bundles
  - Long-term subscriptions

"First things first, a strong foundation"

Proposed Pricing Structure (ZMW)

A. Core Modules Pricing (Per Organization)

Module	Monthly	Quarterly	Annual
Finance & Accounting	1,200	3,300	12,000
Payroll	800	2,200	8,000
Leave Management	400	1,100	4,000
Performance Management	600	1,600	6,000
Procurement	700	1,900	7,000
Inventory	700	1,900	7,000
Fleet Management	600	1,600	6,000

"First things first, a strong foundation"

Proposed Pricing Structure (ZMW)

B. Add-On Modules Pricing

Module	Monthly	Quarterly	Annual
HRIS Full Suite	1,000	2,800	10,000
CRM	900	2,500	9,000
Project Management	800	2,200	8,000
Asset Management	500	1,400	5,000
Document Management	600	1,600	6,000
Compliance & Audit	700	1,900	7,000
Time & Attendance	500	1,400	5,000
Expense Management	500	1,400	5,000

"First things first, a strong foundation"

Proposed Pricing Structure (ZMW)

C. Premium Modules

Module	Monthly	Quarterly	Annual
AI Insights	1,500	4,200	15,000

Large	11,000	30,000	110,000
Enterprise	Custom	Custom	Custom

"First things first, a strong foundation"

Additional Revenue Streams

- Implementation & onboarding fees
- Customization services
- Training packages
- Data migration services
- API integrations (paid)
- White-label solutions for partners

"First things first, a strong foundation"

Pricing Structure Logic (How It Works).

Module Fee + User Tier Fee = Total Feel

Access to Fuctionality

Connect Your Team

"First things first, a strong foundation"

Go-To-Market Strategy.

- Free trial (14–30 days)
- Freemium version (limited users/modules)
- Partner with:
  - Accounting firms
  - HR consultants
  - NGOs
- Digital marketing + demos
- Industry-specific packages (e.g., NGO bundle, SME bundle)

"Critical for Success"

Scalability Strategy

Start with Zambia → expand to:

- Malawi
- Zimbabwe
- Botswana
- Kenya
- Congo

"Critical for Success"

Scalability Strategy

Start with Zambia → expand to:

- Malawi
- Zimbabwe
- Botswana
- Kenya
- Congo

"Critical for Success"

Why This Will Work in Zambia

- Many businesses still use manual or fragmented systems
- High demand for:
  - Payroll compliance
  - Financial reporting
- SMEs need affordable ERP alternatives
- NGOs need structured reporting tools

"Critical for Success"

Positioning Statement

"An all-in-one, customizable business operating system that puts African businesses in control of their growth—one module at a time."
